A woman who has suffered from delusional depression since the death of her first baby, struggles to keep family life sane for her supportive husband and surly teenage daughter. But when a hotshot young doctor recommends ECT (shock therapy) to cure the woman's ills, the entire family is set on a course that will change their lives forever. With tuneful, energetic rock music telling an adventurous and theatrical story, its an unforgettable look at families, grief, recovery, and treatments that might be worse than the disease they are meant to cure.
