Bar Haroush: Nadir Eldad / Matan Shavit

A mental health officer in the army is stationed in a special unit on the Gaza border and treats patients arriving straight from the battlefield. When one of his patients awakens ghosts from the MHO's past, he refuses to send him home. He insists on a daring and controversial treatment method: to send the wounded soldier back into the battlefield, forcing him to face his trauma and reach true healing.

Inspired by real events from Operation Protective Edge.
